Představujeme sadu úkolů pro hru „Hříbková louka“, která se skládá z 25 dřevěných hříbků natřených přírodním barevným voskem. Většina úkolů z této sady se také hodí pro sadu s 9 hříbků.

Přečtěte si popis hry a hledejte kartičky se stejným číslem jako v popisu.

Na konci sady najdete černobílé kartičky pro vypracování vlastních úkolů.

Přejeme Vám mnoho zábavy při hraní!

- 1** Podívejte se na košíček. Jakou má barvu? Najděte hříbek stejné barvy. Dejte ho na košíček.
- 2** Vidíte, nasbírali jsme hříbky a postavili je do řady. Některé hříbky chybí, protože je schovala veverka. Přemýšlejte, které hříbky vám chybí? Pokračujte v řadě. Můžete přidat jeden nebo více hříbků.
- 3** Zkuste uhodnout, který hříbek by měl být na místě otazníku. Na prázdné místo postavte hříbek správné barvy.
- 4** Zamyslete se nad tím, který hříbek se liší od ostatních. Najděte v řadě hříbek, který je tam navíc. Složitější varianta: jeden z hříbků v řadě je mimo pořadí. Přemýšlejte, který hříbek je třeba vyměnit tak, aby byla řada správná.
- 5** Najděte dva stejné hříbky za sebou.
- 6** Podívejte se na kartičku. Jaký přesně hříbek na ní vidíte? Najděte stejný hříbek na Hříbkové louce a ukažte prstem na odpověď. Vyberte si hříbek správné barvy a postavte ho na jeden z menších hříbků umístěných níže.
- 7** Podívejte se na hříbky. Odpovězte na otázky: - Jakou barvu má první hříbek? Jakou barvu má poslední hříbek. Ukažte.
Přidejte kartičku s hříbků bez barvy. Během první etapy dítě uspořádá hříbky podle vzoru, ve druhé etapě hříbky podle vzoru vybarví a vyšrafuje. Ve třetí etapě si dítě pamatuje barvu hříbků, které má před sebou. Jakmile si dítě zapamatuje barvu hříbků, dospělý kartičku zakryje a dítěti zůstanou pouze nevybarvené hříbky. Dítě má za úkol je vybarvit nebo vyšrafovat po paměti.
- 8** Najděte na kruhu číslo 1. Přiložte na něj prst. Projděte se po cestičce a zjistěte, který hříbek dáme do košíčku. Posbírejte všechny hříbky v pořadí.
- 9** Před dítětem jsou dva košíčky: levý a pravý. Požádejte dítě, aby si poslechlo zadání a zapsalo odpověď do rámečku. Variace návodu: Vložte červený hříbek do pravého košíčku levou rukou nebo vezměte modrý hříbek pravou rukou a vložte ho do levého košíčku. Dále můžeme vymyslet složitější variantu: dítě nejprve najde správný košíček, pak ruku a nakonec postaví hříbek. Levý košíček, pravá ruka, červený hříbek nebo pravý košíček, levá ruka, žlutý hříbek.
- 10** Požádejte dítě, aby obrázky porovnal a našlo rozdíly. Ve hře nejprve použijte *** libovolné dvě kartičky, poté můžete spojit 3 a 4. Nezapomeňte, že odpověď dítěte vždy začíná slovy: „Na levé kartičce... a na pravé...“.
- 11** Požádejte dítě, aby postavilo věž podle vzoru a po paměti.
- 12** Požádejte dítě, aby uchopilo správný hříbek určenou rukou (podle obrázku) a zaklepal tolikrát, kolik je uvedeno.
